

Printer Control Panel Documentation Update

Using Printer Control Panel with Pacific Connect or Pacific Print

Due to the unpredictable interaction of various communication control signals, Printer Control Panel should not be used in conjunction with Pacific Connect and Pacific Print.

If you intend to install Printer Control Panel on a computer network, it is recommended that you review Appendix B "Using Printer Control Panel with Networks" of the *Printer Control Panel User's Guide*.

Printer Control Panel diskettes

Your *Printer Control Panel User's Guide* states that 3½-inch and 5¼-inch disks are provided with the package. Only 5¼-inch disks are included. If you need 3½-inch disks, fill out the disk conversion coupon enclosed in the package, or call technical support at (619) 587-4690.
